Veterans Advocacy Program

Outcomes

Program/Intervention Name	Description/Additional Information
Veterans Advocacy Program ☒ Program ☐ Intervention within Program:	The Veterans Advocacy Program advocates for the rights, benefits, and well-being of veterans through a multifaceted approach. That includes disability and compensation claims advocacy and assistance, guidance and representation in the appeals process, and community engagement and partnerships to increase the awareness and accessibility of services. The program also provides regular training for local service officers and staff to ensure they're equipped with the most current information and regulations.
Delivery Setting	Target Population
Organizations/Businesses/Local Governments	Families, Persons with Disability, Veterans

Logic Model	Outputs	Outcome(s)
If we advocate for the rights, benefits, and well-being of veterans through a multifaceted approach, including providing advocacy and assistance around disability and compensation claims and providing guidance and representation in the appeals process, then we will ensure more veterans have access to benefits and information and increase the quality of life of veterans, their families, and their dependents.	1. Number of veterans served	1. Utilization of VA benefits
	2. Number of disability compensation claims filed	2. Dollar amount of retroactive awards received through appeals
	3. Percent of successful appeals (change in direction)	3. Number of retroactive awards received through appeals
	4. Number of veterans and their qualifying family members interred in TN veteran cemeteries
